PROFESSIONAL SUMMARY

Self-taught Full-Stack Developer with expertise in modern web technologies and track record of delivering scalable applications. Specializing in React, Next.js, and TypeScript, with strong capabilities in both front-end and back-end applications. Demonstrated ability to optimize application performance and create good user experiences using TailwindCSS and modern design principles. Known for quick adaptation to new technologies and passionate about solving complex technical challenges through innovative solutions.

TECHNICAL SKILLS

Front-end
Single Page Applications (SPA), UI/UX optimization, Mobile-first design, Code review, Unit testing State management (Redux, Context API), Component lifecycle management, Progressive Web Apps (PWA), Cross-browser compatibility, Web Accessibility (WCAG), React, Next.js, TypeScript, TailwindCSS, HTML5, CSS3, SASS

Backend:
RESTful API design, API Gateway integration, Microservices architecture, Database optimization (MongoDB, PostgreSQL, SuperBase, FireBase), Authentication/Authorization, JWT implementation, Node.js, Express, Superbase, Error Handling & Logging, API Documentation.

Tools & Version Control
Version control (Git, GitHub), CI/CD pipelines, Docker containerization, AWS/Azure cloud services, NPM package management, Webpack, Jest Testing, GitHub Actions, Jira, Figma, Microsoft Suite (Excel, PowerBI, Outlook), Terminal/Command Line

Soft Skills
Strategic Leadership, Agile Project Management, Cross-functional Team Collaboration, Problem-solving & Critical Thinking, Code Review & Quality Assurance, Knowledge Sharing & Documentation, Process Optimization & Workflow Design, Time Management

PROFESSIONAL EXPERIENCE

Frontend Developer | Techsynergy.io   09/2024 – present
                                                            Tallinn, Estonia

- Engineered responsive web applications using React.js 18, 19 and Next.js 14, 15 and also implementing modern state management solutions with Redux and Context API.
- Implemented TypeScript for enhanced code maintainability, achieving 90% type coverage and error handling.
- Developed reusable component libraries following atomic design principles.
- Optimized application performance through lazy loading and code splitting, improving load times by 40%.
- Integrated automated testing using Jest and React Testing Library, maintaining 80% test coverage.
- Collaborated in an Agile environment using Scrum methodology for iterative development.
- Established weekly knowledge sharing sessions, improving team productivity and code consistency
- Serving as CTO and Technical Lead for Swapify, leading a team of 3 developers while architecting technical infrastructure, implementing code review processes, and establishing development workflows that improved code quality and team collaboration and efficiency.

Independent Projects   2021 – present | Tallinn, Estonia

- Designed and developed a responsive portfolio website using React 19, Next.js 15 and TailwindCSS.
- Implemented dark mode and theme customization.
- Achieved optimal SEO performance through Next.js SSG.
- Maintained 100% accessibility score through WCAG compliance.
- Implemented authentication systems and RESTful APIs.
- Utilized version control (Git) for collaborative development.
- Managed database design and integration using MongoDB and PostgreSQL, Superbase and Firebase.
- Developed and deployed multiple web applications using Vercel and Netlify.

EDUCATION

Bachelor of Arts: Creativity and Business   2019 – 2022 | Tallinn, Estonia
Innovation, Estonia Entrepreneurship
University of Applied Sciences

Higher National Diploma in Accounting,   2009 – 2014 | Tallinn, Estonia
Lagos City Polytechnic

LANGUAGES

English (Professional)
Estonian (Basic)
